TECHNICAL SKILLS:

- **Frontend/Backend:-** HTML5, CSS3, JavaScript, TypeScript, ReactJS, Redux
 - **Middleware:-** TIBCO BusinessWorks 6x, TIBCO Scribe, TIBCO Flogo
 - **DevOps:-** Docker, GitHub
 - **Database:-** MySQL, Postgres, MongoDB
 - **Others:-** Tailwind CSS, Gulp.js, Bootstrap, SASS, OOPs, Postman, SSR, CSR
-

EXPERIENCE: 2 Years

Software Engineer - TIBCO Software | June 2022 - Oct 2023

Project: CLE | **Tech:** ReactJS, JavaScript, HTML5, CSS3, Redux, Tailwind CSS

- Had hands-on development experience on **Web applications** and **Single page applications**.
- Worked on web application developed in **ReactJS** a **JavaScript** framework to develop common User Interface (UI) layer for web applications and utilised **Redux** library for state management, CSS frameworks like **Tailwind CSS** for styling. Enhance UI/UX and App performance.
- Developed logics using React.js functional components.
- Got familiar working with **RESTful APIs**, **Synchronous** and **Asynchronous** tasks in JavaScript.
- Actively worked with **React Hooks** such as **useState** and **useEffect**.
- Used React libraries such as **React-Redux**, **Redux Toolkit**, **React-Router** and **React Hook Form**.
- Participated in code reviews, to ensure code quality, consistency, and adherence to best practices.
- Was actively in collaboration with solving, troubleshooting issues in Web apps and developing test framework.

Development Intern - Suven Technology | Jan 2022 - Apr 2022

Tech: ReactJS, JavaScript, HTML, CSS

- Used ReactJS and JavaScript to create user interactive and responsive user Interfaces.
-

PROJECTS:

[\[Link\]](#) **Blog Website** - Frontend Development

Tech Stack: ReactJs, JavaScript, React-Redux, AppWrite, Tailwind CSS

- Frontend Development using React.js for creating web user interactive and responsive user Interface.
- Backend Integration with AppWrite ensures secure user authentication and a robust backend for managing blog content and classification using some algorithms.
- This web Application allows users to create, edit and share blog posts seamlessly.

[\[Link\]](#) **IMDB-Clone** - Frontend Development

Tech Stack: ReactJs, JavaScript, React-Redux, Tailwind CSS

- This is an application which shows up all the movies fetched by The Movies Database.
 - When a user clicks on a poster of a movie it fetches all the information about the movie and displays it on a component.
 - The Banner at the top randomly changes all the time whenever the page is refreshed.
-

EDUCATION:

MIT Academy of Engineering, Pune | B.Tech in Information Technology | Aug 2018 - May 2022

CERTIFICATIONS:

- **Frontend Development using JavaScript** | Dec 2022
- **TIBCO Certified Professional** | Jan 2023
